HORIZON

COMMONS

A CIVIC PAVILION / CONCEPT BOOK

A generous threshold between
climate, culture and pause.

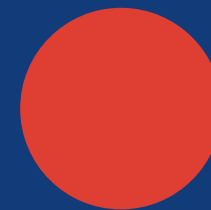

01 / PROPOSITION

SHAD E IS CIVIC.

THE ROOF IS A CLIMATE DEVICE, NOT AN OBJECT.

The canopy gives the public room its temperature, scale and reason to stay.

2,800 M² / WATER + SHADE + GATHERING / OPEN TO THE HORIZON

A place unfolds in three pauses.

I

APPROACH

The long edge slows the city before the building begins.

II

CROSSING

A cool shadow makes the act of arrival feel deliberate.

III

RETURN

Water sends the sky back into the room as a quiet civic ritual.

MAKE ROOM FOR RETURN.

The strongest civic gesture is not
spectacle.

It is giving people a reason to pause,
return, and belong.
